## Data Scientist

\*I am interested in data science because I enjoy using statistical and machine learning techniques to gain insights and solve real-world problems.

Data science also offers a wide range of career opportunities in various industries, and I am excited to learn and grow in this field.\*

The task requested from us in Article 3; We've been asked to patch a sentence or two about why you're interested in data science, in italic format. For example, you can start your first sentence with the definition that I first applied markdown and then italic format

I want to do an arithmetic operation here, and I assigned three keys and two values. and we finalized the result with the print command according to the order of operations.

In [5]:

```
a=1
b=3
c=a+b*b
print(c)
```

10
